RESOLVED, pursuant to State Public Act No. 95-268, an Act concerning Neighborhood Assistance, the programs and complete applications filed in the Town Clerk's office are hereby approved for the purpose of encouraging business contributions to non-profit organizations and government agencies providing important services in Greenwich.

EXPLANATORY COMMENTS

The Connecticut Neighborhood Assistance Act provides tax credits for businesses who contribute to community programs that have received both municipal and state approval. The programs include providing neighborhood assistance, job training or education, community service, crime prevention, energy conservation, or construction and rehabilitation of dwelling units for families of low and moderate income in the State.

Municipalities interested in submitting programs for inclusion in the 2013 Program must hold public hearings on their proposals, and the legislative body of each municipality must also vote to approve the programs. When the tax exempt organization receives both municipal and state approval for its proposed programs, it is then up to that organization to secure funding for the approved program(s) from businesses, which will receive a tax credit from the State of Connecticut.

This program is a way to give corporations and businesses an incentive to give money to not-for-profit and tax exempt organizations that provide valuable services to the community.
